

OEM Manufacturing Services

Since 1980

WHO WE ARE

GLOBAL FOOTPRINT

Knight Electronics, Inc. is a technically enabled manufacturing services company serving small to large OEMs.

We keep you competitive in an ever-changing global marketplace with our:

- Technical capabilities
- Engineering and manufacturing resources
- Supply chain resiliency

We provide sales, engineering, and manufacturing at our headquarters in Dallas, Texas as well as our locations in Asia and the U.K. Our global presence allows us to easily fulfill customer supply chain needs, anywhere. We understand the nuances of international trade and will help you navigate its challenges.

QUALITY & CUSTOMER FOCUS

We are a TÜV SÜD America certified ISO 9001:2015 manufacturer ensuring repeatable top quality products that will exceed your expectations.

To avoid product surprises, we perform:

- On-site production inspections
- 100% outbound inspections
- Incoming inspections

Our well-versed sales and engineering staff routinely assist customers in the design, development, and manufacturing process of components and sub-assemblies to full turnkey assemblies.

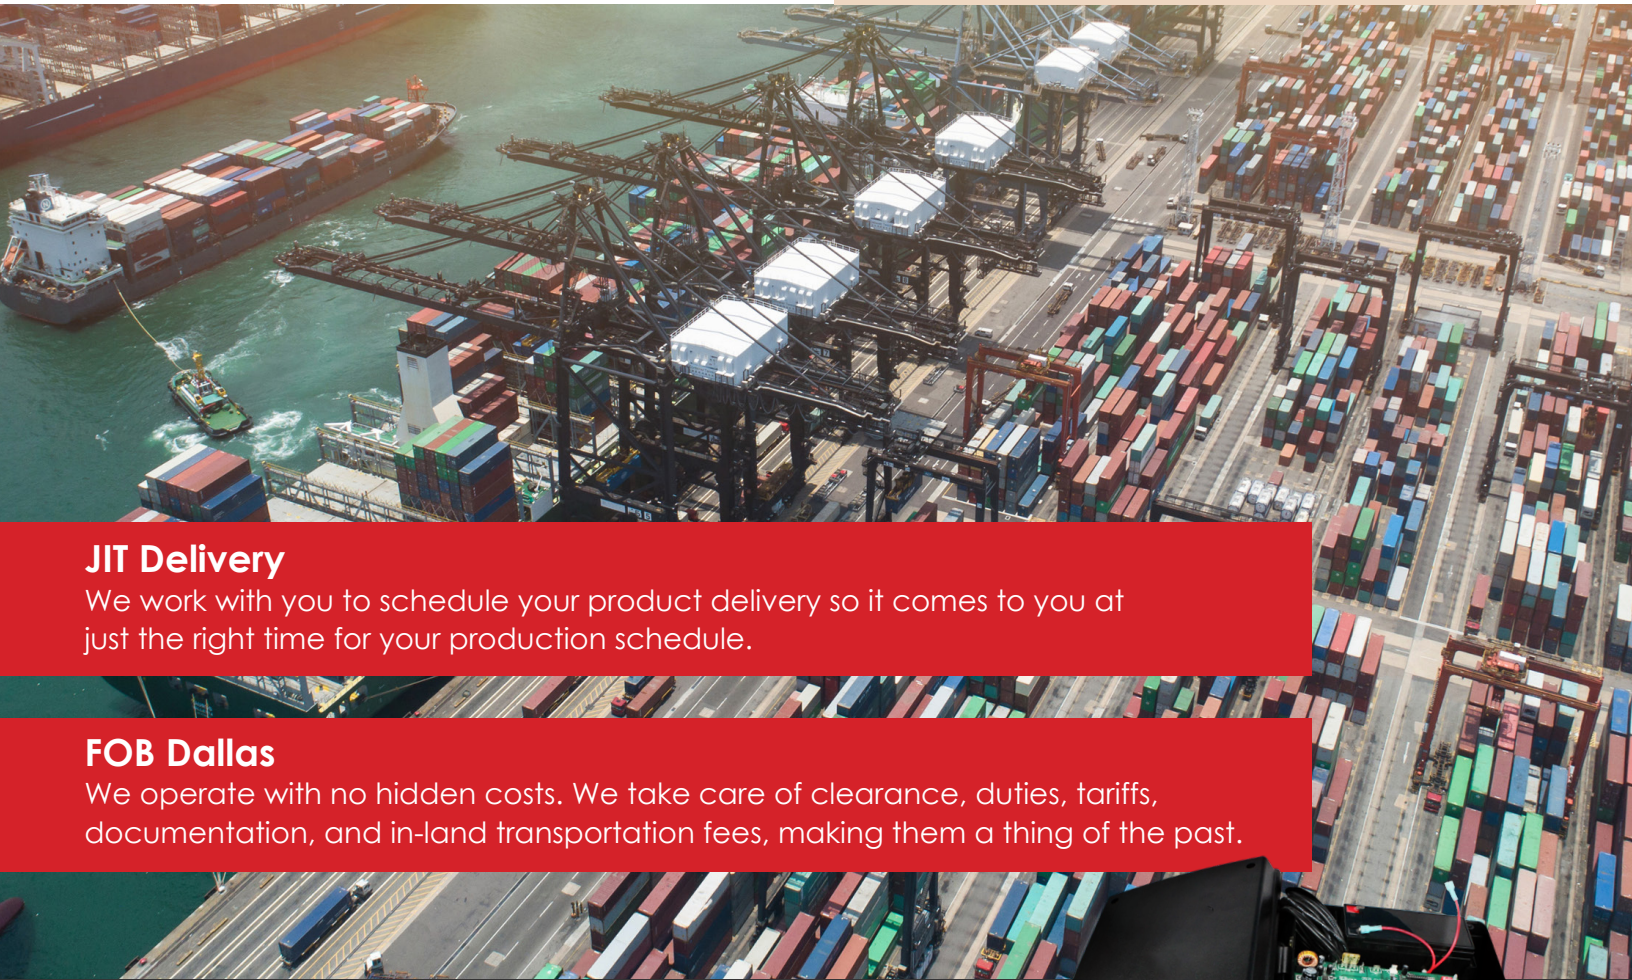

WHERE WE EXCEL

LOGISTICS

With more than four decades of logistics expertise, we offer a variety of services to help you reduce risk and cut down your lead times so your customers can get their product faster.

SUPPLY CHAIN RESILIENCY

We have built a robust supply chain that can withstand global challenges. By simplifying your processes and making them more efficient, we free up your working capital, allowing you to reduce wasted costs.

JIT Delivery

We work with you to schedule your product delivery so it comes to you at just the right time for your production schedule.

FOB Dallas

We operate with no hidden costs. We take care of clearance, duties, tariffs, documentation, and in-land transportation fees, making them a thing of the past.

PROBLEM

How to reduce the cost of a PCB subassembly by 10%

SOLUTION

1. Reduced the component count
2. Reduced the board size by 10%
3. Revised the Product Bill of Materials (BOM) to comply with new Environmental Regulations
4. Cut Production Time by 2 Weeks and Reduced cost by 35%

UNLOCK YOUR FULL POTENTIAL
