WHO WE ARE

WE ARE THE NAME BEHIND THE NAME

Trusted by the globe's most iconic and well-known brands, we deliver unparalleled quality, consistency, and reliability. Our steadfast commitment to excellence empowers industry leaders to set new standards and shape the future worldwide.

Knight Electronics, Inc. is a technically enabled manufacturing services company supporting OEMs of all sizes. We help you stay competitive in a dynamic global marketplace through:

- Advanced technical capabilities
- Comprehensive engineering and manufacturing resources
- Robust supply chain resiliency

With headquarters in Dallas, Texas, and operations in Asia and the U.K., our global presence ensures seamless support for your supply chain needs, anywhere in the world. We understand the complexities of international trade and are here to help you navigate its challenges with confidence.

KNIGHT Electronics, Inc.

QUALITY & CUSTOMER FOCUS

We are a TÜV SÜD America certified ISO 9001:2015 manufacturer ensuring repeatable top quality products that will exceed your expectations.

To avoid product surprises, we perform:

- On-site production inspections
- 100% outbound inspections
- Incoming inspections

Our well-versed sales and engineering staff routinely assist customers in the design, development, and manufacturing process of components and sub-assemblies to full turnkey assemblies.

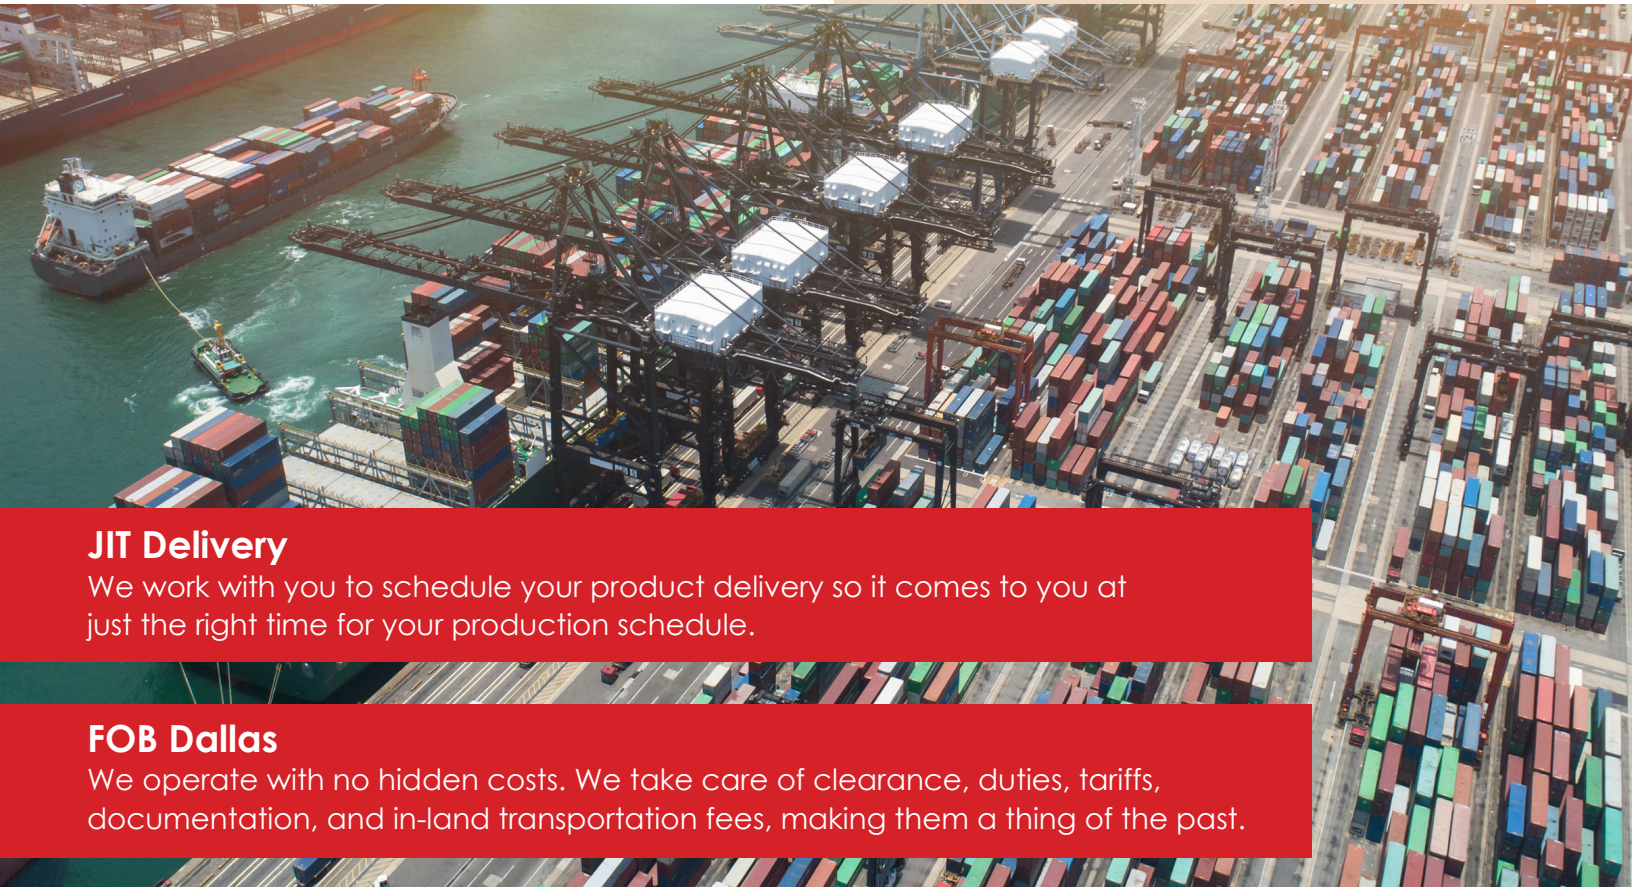
WHERE WE EXCEL

LOGISTICS

With more than four decades of logistics expertise, we offer a variety of services to help you reduce risk and cut down your lead times so your customers can get their product faster.

SUPPLY CHAIN RESILIENCY

We have built a robust supply chain that can withstand global challenges. By simplifying your processes and making them more efficient, we free up your working capital, allowing you to reduce wasted costs.



JIT Delivery
We work with you to schedule your product delivery so it comes to you at just the right time for your production schedule.

FOB Dallas
We operate with no hidden costs. We take care of clearance, duties, tariffs, documentation, and in-land transportation fees, making them a thing of the past.

OUR SERVICES IN ACTION

CUSTOMER PROBLEM

How to reduce the cost of the PCB subassembly by 10%

OUR SOLUTION
